The Founder Of Systematic Construction Solutions

MUHAMMAD IQBAL

Systematic Construction Solutions was founded in 1977 by Mr Muhammad Iqbal, even today his vision and strategies are key of our success. His message clearly draws the strategy of the company.

Growing companies must not only look into the future but also believe to occasionally look into our past from where we began. We should not expect excellence in the future unless we measure the success of our past, listen to our clients and take the necessary and appropriate actions to meet their needs.

Over the past years the following 3 themes have been the keys to our success:

·We "out listen" our competitors by truly understanding our customers needs.

·Our **QUALITY** workmanship, **TIMELY** completion and **SAFETY** records are always top priorities.

·The support and trust of our dedicated and loyal staff are the key elements of our success .

Vision

Systematic Construction Solutions envisions and works toward the goal of becoming an industry leader in the construction trade through delivering specialized services, excellent workmanship and integrity in the workforce.

Once a partner and forever after we shall be real partners as building contractor by delivering beyond expectations, Always.

To procure projects at competitive pricing, provide safe working conditions and deliver quality work within reasonable time frame. We bring success to our clients by continuously contributing toward enhancing their corporate values.

Mission

"Building new horizons"

Excellence Is Doing Ordinary Things Extraordinarily Well

At Systematic Construction Solutions we are inspired to go beyond what is expected and offer a superior quality construction services

Systematic Construction Solutions At Glance

Systematic Construction Solutions started as a general contractor in 1977. Over the years, the group has undertaken many challenging projects and accumulated skills, know-how and experience in building construction projects and related engineering works.

Today Systematic Construction Solutions takes on the role of main contractor for industries and factories for the medium and large size projects. We also provide design inputs and engineering solutions as value-add services to our clients.

The company has developed since inception into a professional construction team providing Multi Millions in annual construction services to a diverse and top tier client base located across the Pakistan. Systematic Construction Solutions philosophy remains focused on delivering a safe, quality project in the most productive and efficient manner possible. We are proud of our history as a company and appreciate our loyal clients who have made our passage from a small few crew company to the professional construction team of over 300 qualified and trained personnel we are today, with a fully integrated communication and project management system. Approximately half of our yearly volume is derived through repeat clients who have trusted in Systematic Construction Solutions to bring value to their investments. Systematic Construction Solutions has a perpetual aim of controlled growth through dedicated service.

How we execute the Project

- Create detailed schedule and resources plan to meet client's project objective,
- Communicate clearly with all project stakeholders,
- Track project progress and fine-tune deviations,
- Supervise closely on quality of work done,
- Complete and commission the project on time

Shahid Iqbal
Chairman

Message From The Chairman Of The Group

We are committed and have strong believe in provision of optimal level of quality, customer satisfaction and environment protection responsibility. Welcome to the place where the ideas and planning are executed and are given ultimate test of market acceptance. Management has kept an eye on the new trends emerging in the field of construction and technological environment. Systematic Construction Solutions has kept pace with global trends by adopting state of the art machinery, which enabled us to provide quality, higher productivity. We feel our self confident to meet the future challenges as we have professional human resources who are endeavoring for new horizon of excellence. We are intending to produce high quality construction projects and are determined to adopt and employ most modern machinery and latest technology. May ALLAH ALMIGHTY give us strength and courage to take the Systematic Construction Solutions colors higher and higher. Inshallah.

GENERAL CONTRACTING

- Project Implementation Services
- Project Management Consultancy
- Process Design & Engineering
- Detailed Engineering
- Procurement
- Construction Management
- Trained work force with extensive experience for executing complex structures
- Equipped with latest state-of-the-art machinery and equipment
- Automated Design and Estimation processes

PRE-CONSTRUCTION MANAGEMENT

- Feasibility Studies
- Cost Engineering
- Design management and Co-ordination
- Activity planning, Cost-estimation and Time scheduling
- Quality Management
- Safety Management

Safe

We do not compromise on safety it always comes first in everything we do. Using the latest safety systems, leadership techniques, training and support helps all of our people and subcontractors go home every night to their families. Safety inductions are mandatory on sites and we start every day with site safety briefings, highlighting new risks and reinforcing the need for constant care. We provide health and well-being programmes, raising awareness of the need to maintain heart health and to be smokefree. We work with customers to eliminate safety risks through design and construction processes. We enforce our rules and foster a positive safety culture on every site.

Smart

Our research and development keeps us at the forefront of construction excellence. Systematic Construction Solutions has kept pace with global trends by adopting state of the art machinery, which enabled us to provide quality and higher productivity. We feel our self confident to meet the future challenges as we have professional human resources who are endeavoring for new horizon of excellence. We are intending to produce high quality construction projects and are determined to adopt and employ most modern machinery and latest technology.

Sustainable

On the ground and out in the field we manage all projects sustainably, with regular independent audits confirming the quality of our approach.

Our staff are fully trained in environmental management, compliance, spill control and the relevant environmental legislation for each jurisdiction. We regularly hold training programmes for new employees and refresher courses for long-serving team members.

We have implemented cleaner production initiatives to reduce waste and atmospheric emissions and to increase energy efficiency. A significant share of our investment in R&D is focused on sustainability issues. We are committed to reducing carbon emissions and recycling and reusing materials through innovative activities.

Business Philosophy

→**Customer Focus and Attention:** We focus on our customers' requirements, expectations, and latent needs.

We evaluate the need of our customers and customize the solutions to match the innermost desires of them.

→**Partnership and Teamwork:** Our designers' efforts and performance is characterized by strong partnerships with clients and working in unison with their thought process and effective teamwork across all boundaries.

→**Employee Development:** The continuous support and personal development of our Employees for the latest trends and best practice in the Construction Industry had led us to achieve new projects on challenging grounds.

→**Service and Quality & Timely Project Delivery** These three key words are the foundation of the success, what ever we have earned so far

Think . Design . Build .

→ THINK

Systematic Construction Solutions believes in carefully and methodically thinking about every aspect of a project. Taking the time to think about the individual requirements and dynamics of each element of a project ensures that Systematic Construction Solutions can focus on surpassing the goals of our clients

→ DESIGN

Ensuring the design process is managed effectively is the most crucial aspect of creating a successful outcome for any project. Systematic Construction Solutions ensures the requirements of all the stakeholders are realised through the design process while creating an efficient, and functional design.

→ BUILD

The build phase is the culmination of the think and design processes, physically realising the vision behind the project while delivering the wishes of all the stakeholders. Systematic Construction Solutions approaches the build phase of all our projects with an unyielding desire to create exceptional quality

Health Safety Environment Policy

HEALTH & SAFETY POLICY

Systematic Construction Solutions. Management will carry out its activities in a manner that assures safety health and security for its employees and avoid damages to Company assets.

Paving New Paths

Z-CON PAVERS

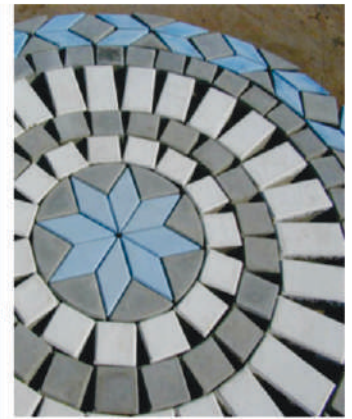

Paving New Paths

Z-CON is the manufacturer of a wide range of Pre-cast and pre-stressed concrete products for variety of uses.

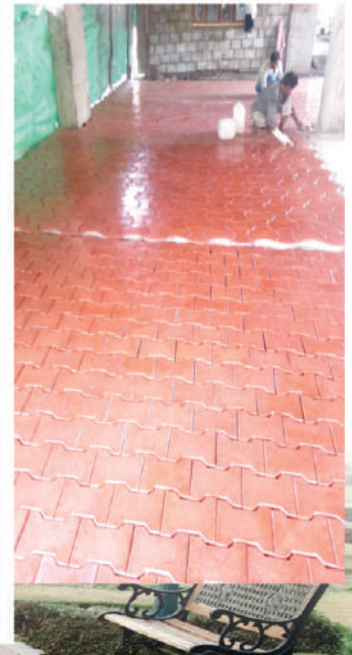

Z-CON present high quality concrete pavers and blocks. These are produced on fully automatic, hydraulically compressed computerized plants with strict quality control standards.

Z-CON is a ready-made concrete interlocking block flooring system, one of the most popular pavement around homes, commercial buildings and urban spaces. Pavers are used in ports, heavy duty industrial areas, parking lots, gas stations, petrol pumps, streets, shopping centers, plazas, sidewalks, swimming pool decks, driveways, walkways and patios.

In addition to the aesthetic value of paver what we offer is the strength and durability. These pavers are manufactured on most modern double layer automatic plant. These blocks are available in variety of colours and shapes, so you can create new flooring pattern every time.
